Important Notice From Phoenix Painting Industry Trust Fund About Prescription Drug Coverage For People With Medicare

This notice is for people with Medicare. It is sent to all participants. If you are eligible for Medicare, or will be soon, please read this notice carefully and keep it where you can find it.

This Notice has information about your current prescription drug coverage with Phoenix Painting Industry Trust Fund and the prescription drug coverage available for people with Medicare. It also explains the options you have under Medicare's prescription drug coverage and can help you decide whether or not you want to enroll in that Medicare prescription drug coverage. At the end of this notice is information on where you can get help to make a decision about Medicare's prescription drug coverage.

- **If you and/or your family members are not now eligible for Medicare, and will not be eligible during the next 12 months, you may disregard this Notice.**
- **If, however, you and/or your family members are now eligible for Medicare or may become eligible for Medicare in the next 12 months, you should read this Notice very carefully.**

This announcement is required by law whether the group health plan's coverage is primary or secondary to Medicare.

1. In 2006, Medicare prescription drug coverage became available to everyone with Medicare through Medicare prescription drug plans and Medicare Advantage Plans that offer prescription drug coverage. All Medicare prescription drug plans provide at least a standard level of coverage set by Medicare. Some plans may also offer more coverage for a higher monthly premium.
2. **Phoenix Painting Industry Trust Fund has determined that the prescription drug coverage under Trustmark Life Insurance Company, Administered by Wellpoint, is "creditable".** "Creditable" means that the value of this Plan's prescription drug benefit is, on average for all plan participants, expected to pay out as much as the standard Medicare prescription drug coverage will pay.

Because the plan options noted above are, on average, at least as good as the standard Medicare prescription drug coverage, **you can select or keep prescription drug coverage under Phoenix Painting Industry Trust Fund and you will not pay extra if you later decide to enroll in Medicare prescription drug coverage.**

You may enroll in Medicare prescription drug coverage at a later time, and because you maintain creditable coverage, you will not have a late enrollment fee.

REMEMBER TO KEEP THIS NOTICE

If you enroll in one of the plans approved by Medicare which offer prescription drug coverage, you may be required to provide a copy of this notice when you join to show that you are not required to pay a higher premium amount.

Medicare-eligible people can enroll in a Medicare prescription drug plan at one of the following 3 times:

- when they first become eligible for Medicare; or
- during Medicare's annual election period (from November 15th through December 31st); or
- for beneficiaries leaving employer/union coverage, you may be eligible for a Special Enrollment Period in which to sign up for a Medicare prescription drug plan.

When you make your decision to enroll in a Medicare prescription drug plan, you should also compare your current prescription drug coverage, (including which drugs are covered) with the coverage and cost of the plans offering Medicare prescription drug coverage in your area.

NOTE: You will receive this notice annually and at other times in the future such as if the creditable/non-creditable status of the prescription drug coverage through the Phoenix Painting Industry Trust Fund plan changes. You may also request a copy of a Notice at any time.

WHAT HAPPENS IF YOU DO NOT ENROLL IN A MEDICARE DRUG PLAN?

If you do not enroll in a Medicare prescription drug plan when you are first eligible to do so and you elect or continue prescription drug coverage under the Phoenix Painting Industry Trust Fund and at a later date you decide to elect Medicare prescription drug coverage, you may pay a higher premium (a penalty) for that Medicare prescription drug coverage for as long as you have that Medicare coverage. This late enrollment penalty is described below:

If you go 63 days or longer without prescription drug coverage that is at least as good as Medicare's prescription drug coverage, your premium will go up at least 1% per month for every month after May 15, 2006 that you did not have either Medicare drug coverage or coverage under a creditable drug plan. You will have to pay this higher premium as long as you have Medicare prescription drug coverage.

For example, if 19 months pass where you do not have creditable prescription drug coverage, when you decide to join Medicare's drug coverage your monthly premium will always be at least 19% higher than what many other people pay.
